leiðbeiningar

Á næstu síðu eru allar myndirnar sem eru í Bingóinu. Klipptu hverja og eina út og settu þær allar í poka.

Bingóstjóri tekur eina mynd upp úr pokanum í einu og tilkynnir spilurum hvaða mynd kom upp. Spilarar nota blýant eða blaðbúta til að merkja við ef myndin þeirra kemur upp.

Hægt er að spila einn bókstaf í einu, til dæmis bara B, eða spila X yfir spjaldið. Möguleikarnir eru endalausir.

Góða skemmtun!
